Enrollment questions: Please direct any questions about enrollment to the Head GSI, Ishai Dan-Cohen. Contact information will be posted on the course website soon.

Homework and Quizzes: Homework will not be collected, but it is *very* important that you do it. Proficiency comes from working problems; understanding the lecture is not enough. There will be quizzes every Wednesday (unless there is an exam that week) at the end of class. Each quiz will consist of a harder problem from the current homework assignment, an easier problem from the current homework assignment, and a problem from a previous homework assignment (I may change the numbers). There will be no make-ups for missed quizzes. To account for illnesses, bad days, and other unexpected events, you can drop your lowest three quiz grades from the semester. Quizzes will account for 20% of your semester grade.
